

REACH School Accessibility Plan 2020 -2023

Reaching out to all our learners, we will

Educate them in the widest sense so that they can

Achieve their potential and progress on to appropriate pathways.

Challenging our learners in a variety of different ways that increase resilience, we will have

High expectations of student and family engagement, which in turn will bring success.

Accessibility Plan July 2020 – July 2023

This plan outlines how REACH school aims to increase access to education for students with disabilities in the three areas required by the planning duties in the Equality Act 2010 (i.e. the curriculum, physical environment and information).

A person is regarded as having a disability under the Act where they have a physical or mental impairment that has a substantial and long-term adverse effect on their ability to carry out normal day-to-day activities.

This plan aims to:

- Increase the extent to which students with disabilities can participate in the curriculum.
- Improve the physical environment of the school to enable students with disabilities to take better advantage of education, benefits, facilities and services provided.
- Improve the availability of accessible information to students with disabilities.

The above aims will be delivered within a reasonable timeframe, and in ways which are determined after taking into account students' disabilities and the views of parents and students.

The governing board also recognises its responsibilities towards employees with disabilities and will:

- Monitor recruitment procedures to ensure that individuals with disabilities are provided with equal opportunities.
- Provide appropriate support and provision for employees with disabilities to ensure that they can carry out their work effectively without barriers.
- Undertake reasonable adjustments to enable staff to access the workplace.

The plan will be resourced, implemented, reviewed and revised in consultation with:

- Students' parents.
- The headteacher and other relevant members of staff.
- Governors.
- External partners.

This plan is reviewed every three years to take into account the changing needs of the school and its students. The plan is also reviewed where the school has undergone a refurbishment.

The accessibility audit

- 1.1. The governing board will undertake an annual Accessibility Audit.
- 1.2. The audit will cover the following three areas:
 - **Access to the curriculum** – the governing board will assess the extent to which pupils with disabilities can access the curriculum on an equal basis with their peers.
 - **Access to the physical environment** – the governing board will assess the extent to which pupils with disabilities can access the physical environment on an equal basis with their peers.
 - **Access to information** – the governing board will assess the extent to which pupils with disabilities can access information on an equal basis with their peers.
- 1.3. When conducting the audit, the governing board will consider all kinds of disabilities and impairments, including, but not limited to, the following:
 - **Ambulatory disabilities** – this includes pupils who use a wheelchair or mobility aid
 - **Dexterity disabilities** – this includes those whose everyday manual handling of objects and fixtures may be impaired
 - **Visual disabilities** – this includes those with visual impairments and sensitivities
 - **Auditory disabilities** – this includes those with hearing impairments and sensitivities
 - **Comprehension** – this includes hidden disabilities, such as autism and dyslexia
- 1.4. The findings from the audit will be used to identify short-, medium- and long-term actions to address specific gaps and improve access.
- 1.5. All actions will be carried out in a reasonable timeframe, and after taking into account pupils' disabilities and the preferences of their parents.
- 1.6. The actions that will be undertaken are detailed in the following sections of this document.

Planning duty 1: Curriculum

Increasing the extent to which everyone can participate in the school curriculum

TARGET	STRATEGY	OUTCOME	TIMEFRAME	WHO	ACHIEVEMENT
